

NetScore Rental Management

For NetSuite

Built for
ORACLE
NETSUITE 
Native SuiteApp

NetScore Rental Management provides a full featured solution for distribution companies who rent equipment as part of their product offering. NetScore Rental Management is built native to the NetSuite platform providing a seamless extension to the customer's ERP solution. The application leverages core NetSuite features for item set up, billing, returns and reporting. Rental agreement contracts can be tailored through the standard form tools. Advanced capabilities include integration with NetSuite Asset Management, contract extensions, item replacement, a workflow navigation capability, and ability to maintain service records on equipment.

Full Featured Rental Solution Integrated with Your ERP

Utilizes NetSuite to manage items, customers, billing, and flexible reporting in one place.

Popular Web Extensions

Web extensions enable you to offer rentals on your NetSuite web site. Manage the entire rental process with your existing web store. Now available for WooCommerce and Shopify users.

Manage Your Rental Assets

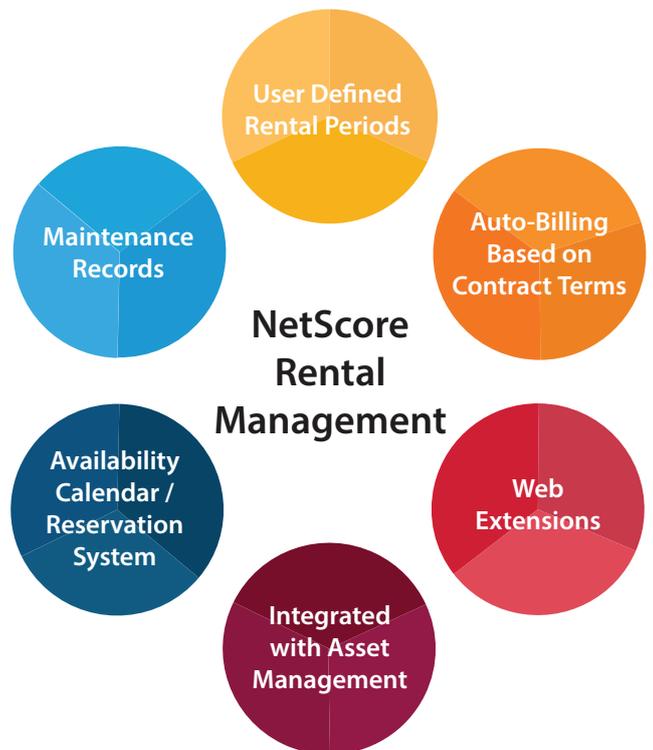

Track availability, maintenance actions, rental history, revenue generated and full Asset Management integration (optional).

Easy Reporting

Leverage NetSuite reporting tools, dashboards, and saved searches, to keep up to date on your rental business. Rental Manager role and dashboards are included.

Flexible Billing Options

User defined billing cycles, integrated credit card, and automated billing based on contract terms makes billing quick and easy.

// *More importantly than the app or the rental knowledge, NetScore has gone above and beyond to help our team problem solve and understand what NetSuite with NetScore can do. Together, we have built out several customizations that fit our business and are gaining key efficiencies in our... business processes. They are willing and able to work as a team to think through and solve the complexities that our use cases bring.* //

Patrick Croft | Procurement Manager
Permian Equipment Rentals

Features

Automated Billing & Customer Payments

Automatically generates invoices based on billing schedule associated with the rental contract. Manage security deposits and upfront or scheduled payments.

Flexible Management of Rental Contracts

Extend contracts, replace items, terminate contracts early, and change terms mid-contract.

Maintenance of Rental Items

Maintain records of all maintenance activities and costs for your rental fleet. Replace items on rent when maintenance action is needed.

Full Integration with NetSuite Financials

Leverages NetSuite financials for billing, revenue recognition, and financial reporting. Integration with asset management let's you track the value of your rental assets.
